

Irwin Elementary Benefits from Charlotte Office Fall Community Service Project

October 24, 2009

On October 24th, the Charlotte office held their annual fall service project. This year, Irwin Elementary was the organization chosen to be the recipient. The principal, vice principal, and teachers were thrilled and amazed at what was accomplished in only 4 hours!

Upon arrival, the “dungeon” was full of piles and piles of trash, broken furniture and unused items, the back of the media center/teacher planning area was bland, unorganized and cluttered and the planters at the entrance of the school were filled with dead flowers. Reznick managed to remove every item from the “dungeon”, separate the trash from the items to be hauled to the CMS warehouse (we filled 2 big box trucks) and neatly arrange the items for Irwin’s use back in the “dungeon”.

The media center/teacher planning area was reorganized, books were relabeled and put into the correct areas and unnecessary items were trashed or restored in the attic.

Reznick replaced white book bins with colorful bins and decorated the main planning area with beautiful plants for the teachers enjoyment. The room looks dramatically different.

Reznick left behind many school supplies from the school wish list for the teachers including cheerful bulletin board supplies, pens and pencils, stickers for encouraging students, magazine subscriptions and fun school supplies. Reznick also replaced the dead flowers at the entry way with vibrant yellow mums.
